

Company:	Date:	
ECHOtape	October, 2018	
1-800-461-8273		
SECTION 1: IDENTIFICATION		
Product Name	MK-K5408, MK-K5417, MK-K5431,	
	MK-K5434, MK-K5445, MK-K5463	
Product Use	Painting, masking and other applications	
SECTION 2: HAZARDS IDENTIFICATION		
•	th or safety hazard under recommended	
or normal use. However misuse of these products may affect performance		
and present a potential health or saf	ety hazard	
Hazard Designation	None Applicable	
Information pertaining to particular	None Applicable	
dangers for man and environment		
Classification system	The classification is in line with current EC	
	lists. It is expanded, however, by	
	information from technical literature and	
	by information furnished by supplier	
	companies.	
Additional Information	The product evidently does not contain any	
	organically bonded halogen compounds	
	(AOX), nitrates, heavy metal compounds or	
CECTION 2. COMPOSITION (INFORMATIO	formaldehydes.	
SECTION 3: COMPOSITION/INFORMATIO	T	
Backing Adhesive	Crepe paper Solvent/natural rubber	
Liner	N/A	
SECTION 4: FIRST AID MEASURES	N/A	
General Information	No anasial magazinas vagriirad	
	No special measures required Flush eyes with water at least 15 minutes	
Eye(s) Skin contact	Frequent skin contact should be avoided	
	No need for first aid is anticipated	
Ingestion	-	
Inhalation SECTION 5: FIRE HAZARDS	No need for first aid is anticipated	
	Not own!: orbin	
Flash Point	Not applicable	
Suitable Extinguishing Agents	Water, Dry chemical foam	
Special Hazards caused by Materials, its products of combustion or flue gases	None	
Protective equipment	Wear full protective equipment, and a self	
rrorective equipment	contained breathing apparatus	
Additional information	None	
	HOUS	

require monitoring at the workplace quantities of materials with critical value that have to be monitored at the workplace Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures The usual precautionary measures should	SECTION 6: ACCIDENTAL RELEASE MEASURES		
Measures for cleaning / collecting Additional information SECTION 7: HANDLING AND STORAGE Information for safe handling Information about protection against explosions and fires Requirements to be met by storerooms and containers Information about storage in one common storage facility Further information about storage conditions Storage class according to regulation on inflammable liquids SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION Additional information about design of technical systems Components with critical values that require monitoring at the workplace Additional information Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures To dangerous materials are released No dangerous materials are released No dangerous materials are released No trequired Not required Not required Not required None Section Required None None The product does not contain any relevant quantities of materials with critical value that have to be monitored at the workplace The usual precautionary measures should	Person-related safety precautions	Not required	
Additional information SECTION 7: HANDLING AND STORAGE Information for safe handling Information about protection against explosions and fires Requirements to be met by storerooms and containers Information about storage in one common storage facility Further information about storage conditions Storage class according to regulation on inflammable liquids SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION Additional information about design of technical systems Components with critical values that require monitoring at the workplace Additional information The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures No special measures required Not required	Measures for environmental protection	No special measures required	
Information for safe handling Information about protection against explosions and fires Requirements to be met by storerooms and containers Information about storage in one common storage facility Further information about storage conditions Storage class according to regulation on inflammable liquids SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION Additional information about design of technical systems Components with critical values that require monitoring at the workplace Additional information Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures Not required Not requirements Not required Not requirements	Measures for cleaning / collecting	Collect mechanically	
Information for safe handling Information about protection against explosions and fires Requirements to be met by storerooms and containers Information about storage in one common storage facility Further information about storage conditions Storage class according to regulation on inflammable liquids SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION Additional information about design of technical systems Components with critical values that require monitoring at the workplace Additional information Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures Not required Not requirements	Additional information	No dangerous materials are released	
Information about protection against explosions and fires Requirements to be met by storerooms and containers Information about storage in one common storage facility Further information about storage conditions Storage class according to regulation on inflammable liquids SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION Additional information about design of technical systems Components with critical values that require monitoring at the workplace Additional information Additional information The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures The usual precautionary measures should	SECTION 7: HANDLING AND STORAGE		
explosions and fires Requirements to be met by storerooms and containers Information about storage in one common storage facility Further information about storage conditions Storage class according to regulation on inflammable liquids SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION Additional information about design of technical systems Components with critical values that require monitoring at the workplace Additional information Additional information The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures The usual precautionary measures should	Information for safe handling	No special measures required	
Information about storage in one common storage facility Further information about storage conditions Storage class according to regulation on inflammable liquids SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION Additional information about design of technical systems Components with critical values that require monitoring at the workplace and hygienic measures General protective and hygienic measures Not required None None None The protective and hygienic measures The usual precautionary measures should		Not required	
Further information about storage conditions Storage class according to regulation on inflammable liquids SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION Additional information about design of technical systems Components with critical values that require monitoring at the workplace Additional information Additional information The product does not contain any relevan quantities of materials with critical values that have to be monitored at the workplace The lists that were valid during the compilation were used as a basis General protective and hygienic measures The usual precautionary measures should	•	No special requirements	
Storage class according to regulation on inflammable liquids SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION Additional information about design of technical systems Components with critical values that require monitoring at the workplace Additional information Additional information The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace that have to be monitored at the workplace and hygienic measures General protective and hygienic measures The usual precautionary measures should	_	Not required	
inflammable liquids SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION Additional information about design of technical systems Components with critical values that require monitoring at the workplace quantities of materials with critical values that have to be monitored at the workplace Additional information Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures The usual precautionary measures should	_	None	
Additional information about design of technical systems Components with critical values that require monitoring at the workplace Additional information Additional information The product does not contain any relevan quantities of materials with critical values that have to be monitored at the workplace The lists that were valid during the compilation were used as a basis General protective and hygienic measures The usual precautionary measures should		None	
technical systems Components with critical values that require monitoring at the workplace quantities of materials with critical value that have to be monitored at the workplace Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures The usual precautionary measures should			
require monitoring at the workplace quantities of materials with critical value that have to be monitored at the workplace Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures The usual precautionary measures should		No further data, see item 6	
Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures The usual precautionary measures should be a shou	Components with critical values that	The product does not contain any relevant	
Additional information The lists that were valid during the compilation were used as a basis General protective and hygienic measures The usual precautionary measures should	require monitoring at the workplace	quantities of materials with critical values that have to be monitored at the workplace.	
	Additional information	The lists that were valid during the compilation were used as a basis	
be danered to in nandling the chemicals	General protective and hygienic measures	The usual precautionary measures should be adhered to in handling the chemicals	
Breathing Equipment Not required	Breathing Equipment		
Eye Protection Not required			
Protections for hands Not required			
Body Protection Not required	Body Protection	Not required	

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES		
Form	Solid material	
Colour	Varies by product	
Smell	Odourless	
Melting Point / Melting Range	Not determined	
Boiling Point / Boiling Range	Not determined	
Flash Point	Not applicable	
In flammability (solid, gaseous)	Not applicable	
Ignition Temperature	Not determined	
Self-In flammability	Product is not self igniting	
Danger of Explosion	Product is not explosive	
Density	Not determined	
Solubility in / Miscibility with water	Insoluble	
Organic Solvents	<1%	
Solids Content	100%	
SECTION 10: STABLITY AND REACTIVITY		
Thermal decomposition / Conditions to be avoided	No decomposition if used accordingly	
Dangerous Reactions	No dangerous reactions known	
Dangerous products of decomposition	No dangerous decomposition products known	
SECTION 11: TOXICOLOGICAL INFORMATION		
Primary irritant on skin	Risk of inflammation on skin if direct long term contact	
Primary irritant on eyes	No irritant effect	
Sensitization	No sensitizing effect known	
Additional Toxicological Information	The product is not subject to classification according to the calculation method of the General EC Classification Guidelines for Preparations as issued in the latest version: When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided us.	
SECTION 12: ECOLOGICAL INFORMATION		
General Notes	Water hazard class 0 (self–assessment): generally not hazardous for water	

SECTION 13: DISPOSAL CONSIDERATIONS		
Product Recommendation	Treat as inflammable rubbish	
Unclean Packaging Recommendation	Treat as inflammable rubbish	
SECTION 14: TRANSPORT INFORMATION		
Transport / Additional Information	Not Dangerous according to the above specifications	
SECTION 15: REGULATORY INFORMATION		
Designation according to EC guidelines	Observe the normal safety regulations when handling chemicals. The product is not subject to identification regulations under EC Directives and the Ordinance on Hazardous Materials (GefStoffV)	
SECTION 16: OTHER INFORMATION		
These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
